# Farmer Brown

Listen carefully to the story.

Track
3/4

This is farmer Brown. He has got a cow. The cow eats a lot of green grass. The cow has got a baby. It is called a calf. The calf drinks milk from the cow. But the cow has got more milk than the calf needs. So the farmer milks the cow with a machine. Then a truck driver comes to the farm. He picks up the milk and brings it to a factory. There some of the milk is filled up into bottles. Some milk is used for making cheese. You can make yoghurt, cream and butter out of milk. After that the truck driver takes the milk bottles and the other milk products to the supermarket. There we can buy the milk and the other milk products. You can also buy milk and cheese from goats and sheep.

MILK
